

Creating Innovative Higher Education for the 21st Century

21世紀に求められる
「革新的な高等教育」の創出に向けて

Date: Tuesday 27 March, 2018

Time: 14:00-16:30

Venue: Global Study Room,
Tohoku U. Main Library

東北大学附属図書館 グローバル学習室

Language: English

21st Century Higher Education Institutions are increasingly being expected to generate and specify learning outcomes for students. To this end, universities and colleges need to continue to innovate in order to support and enhance student learning and ensure quality of post-secondary education. In this PD seminar, the IEHE's Visiting Researchers, Dr. Andy Leger and Dr. Angelito Calma, talk about the latest state of learning space and curriculum mapping, referring to their practice and experience in Canada and Australia. We will discuss and find out how to create innovative higher education from two perspectives.

Innovative Learning Space for Student's Active Learning

Dr. Andy Leger, Associate Professor

Center for Teaching and Learning
Queen's University, Canada

Curriculum Mapping and Assurance of Learning in Quality-Driven Higher Education

Dr. Angelito Calma, Senior Lecturer

Williams Centre for Learning Advancement (WCLA)
& Faculty of Business and Economics,
the University of Melbourne, Australia
